Sewer, water, storm drain pipeline - U/G ≥36"	case by case	case by case	case by case

Note: Longitudinal installations are evaluated on a case by case basis

O/H = Overhead

U/G = Underground

\* Actual cost is generated from NCTD labor time applied to a specific process at a fully burdened hourly rate, plus costs incurred by NCTD directly related to the requested activity. Fully burdened hourly rates applied by NCTD include the base compensation of NCTD staff that are engaged in the requested activity, plus the associated employee benefits incurred by NCTD for that staff member such as payroll taxes, medical benefits, retirement plans, etc.
